Serving Your Loved Ones  
with Dignity and Respect

# Because we care

In just under 100 years, Canadians have been able to raise their average life expectancy from 59 to 80. This is due to a number of factors including being able to stay in the comforts of one's own home.

However, with people now living well into their golden years, hospitals are no longer able to assist like they once could. This is why Premier Homecare Services was created.

Premier Homecare Services believes retirement should be spent relaxing in the comfort of your own home and enjoying time with family and friends. Since 2003, our staff have been providing compassionate at-home care to a wide variety of clients, which has led to us achieving accreditation.

“Thank you so much for your contribution to the Manulife Walk for Memories. Almost 550 walkers raised over \$228 000 to support Alzheimer Society. It was a wonderful day full of fun, music and memories. On behalf of all of us here at the Society, thank you for making this a very special day. We look forward to seeing you next year!”

- Your Friends at Alzheimer Society

“On behalf of the Hospital’s Patient Service Group of Family Medicine and Community Services, I would like to take this opportunity to thank you for your participation at our 10<sup>th</sup> Annual Celebration of Diversity day.
